

Public Forum on Service Needs for People with Chemical Dependency Problems

Poughkeepsie...Dutchess County Executive Marcus J. Molinaro has announced a public forum on service needs of chemically dependent persons and their families, which will be held on Thursday, April 12, from 4-6 P.M. in the Multi-Purpose Room at the Mental Health Center, 230 North Road, Poughkeepsie. The event is open to all Dutchess County residents and is sponsored by the Chemical Dependency Subcommittee of the Dutchess County Mental Hygiene Board.

Dutchess County Commissioner of Mental Hygiene Dr. Kenneth M. Glatt encourage consumers, family members, providers of service and all interested citizens to come to the forum and speak about their concerns, suggestions and/or experiences regarding chemical dependency services.

The Division of Chemical Dependency Services offers a wide range of services for Dutchess County residents who are chemically dependent (i.e., persons who are abusing alcohol and/or other drugs). "Over 4,000 persons a year are served in the various programs of the Department and our contract agency partners. We are looking for public input and support of programs and services for the effective prevention, treatment and rehabilitation of chemically dependent persons. Each year, the Department must submit a Local Services Plan to the New York State Office of Alcoholism and Substance Abuse Services, the governmental body which licenses chemical dependency treatment programs. Citizen input is an important part of this planning process," Commissioner Glatt said.

Moderating the session will be Margaret Hirst, LCSW, Chief of the Department's Chemical Dependency Services Division. Ms. Hirst also serves as the Staff Liaison to the Subcommittee. Membership on the Subcommittee is open to residents of Dutchess County, subject to appointment by the Mental Hygiene Board and with the approval of the Commissioner. For further information, please call Ms. Hirst at 486-3790.
