

Flooding Causing Road Closures in Hyde Park and North East

Hyde Park, NY... The Dutchess County Department of Emergency Response has reported two road closures as a result of flooding. Crum Elbow Road in the Town of Hyde Park is closed between Cardinal Road to Matuk Road. Mill Road in the Town of North East is closed between Downey Road and Indian Lake Road.

Steady heavy rainfall overnight has tapered to lighter areas of rain and showers for today. However, flooding continues to be a concern through tomorrow. More steady precipitation is expected by this evening, including wintry precipitation over much of the region, with light ice/sleet accumulations possible.

Motorists should exercise caution when traveling today and be alert for excess water on roadways that can create hazardous driving conditions.
